Five School of Computing programmes have been accredited by BCS, The Chartered Institute for IT:

- BSc (Honours) Computer Science (DT228)
- BSc (Honours) Computing (DT211)
- BSc (Honours) Information Systems and Information Technology (DT249)
- MSc Computing (Information Technology) (DT210, DT230)
- MSc Computing (Knowledge Management) (DT209, DT217)

All students entering the above programmes in the current academic year and in future academic years will be eligible for membership of BCS, The Chartered Institute for IT upon graduation. Membership allows the graduate use of the letters MBCS following their name.

Additionally, students can apply for Chartered Status upon completion of both Bachelors level and Masters level programmes, subject to completion of recognised work experience. Graduates of these programmes will be eligible to apply for Chartered Engineer (CEng) and Chartered Information Technology Professional (CITP).

Accreditation of programmes is awarded by BCS, The Chartered Institute for IT after a rigorous assessment of the academic quality and professional relevance of the programmes. By achieving this accreditation, the above programmes are recognised internationally, facilitating graduates in gaining recognition for their academic and professional achievements in the global marketplace.
